## PROFESSIONAL EXPERIENCE

---

A devoted Developer with over 4years of experience specializing in front-end development, UI/UX design, and Frontend Development. With a passion for creating responsive, user-friendly web applications with a strong focus on performance and accessibility. Proven track record of delivering high-quality projects on time and collaborating effectively with cross-functional teams.

## WORK EXPERIENCE

---

### *William's Synergy Inc. | 2024–present | Frontend Developer*

- In order to guarantee correct listings, revisions, and adherence to accessibility guidelines, I am overseeing and maintaining the content of the website.
- Designing and creating user-friendly, responsive websites utilizing HTML, CSS, JavaScript and React JS.
- working together to implement strategic website enhancements with the marketing, development, and content creation teams.
- Optimizing site performance using lazy loading, caching techniques, and responsive design, decreasing page load times by 40%.
- Overseeing routine upgrades and audits to preserve the usability and accessibility.

## PROJECTS

---

- [Polio Landing Page](#)

Built a responsive landing page with **React** and **Framer Motion**, bringing **Figma designs** to life with smooth animations and modern UI/UX. Deployed on **Vercel** for speed, reliability, and seamless user experience.

- [Lawyer Portfolio](#)

Built a lawyer portfolio website in **React**, turning **Figma designs** into responsive pages with service highlights, case studies, and smooth animations. Deployed on **Vercel**, ensuring fast load times and a professional, trustworthy online presence.
